EDUCATION

Thang Long University

Hanoi, Vietnam

Bachelor of Science in Artificial Intelligence and Computer Science

Graduation: 12/2025

GPA: Artificial Intelligence 8.3/10 | Computer Science 8.2/10

Relevant Coursework: Machine Learning, Natural Language Processing, Computer Vision, Data Mining, Big Data, Data Structures & Algorithms, Database Systems.

SKILLS & CERTIFICATIONS

Machine Learning Models: Logistic Regression, Decision Tree, Linear Regression, Random Forest, Gradient Boosting (XGBoost, LightGBM), Scikit-learn, PyTorch, TensorFlow, Keras, Transformers, Model Training & Optimization.

Programming: Experienced in C++, Python, SQL, PySpark, and Docker for scalable apps and data pipelines.

Software and Visualization: Skilled in using Power BI to create interactive dashboards and reports.

Fluent in Vietnamese, intermediate in English, and basic in Chinese.

CERTIFICATIONS: TOEIC scheduled for May 2026 (target score: 750).

PROJECTS

Named Entity Recognition (NER) - Team Lead | Team of 3

Jul - Oct 2024

- Developed a Vietnamese Named Entity Recognition (NER) model using Transformer architecture.
- Achieved an 80% F1-score by fine-tuning the model on a manually annotated dataset.
- Utilized Python, PyTorch, Hugging Face Transformers, SpaCy, Docker, and FastAPI.

Automated Test Scoring Project - Team Lead | Team of 3

Jan - Apr 2025

- Developed a computer vision system to automatically grade multiple-choice answer sheets.
- Reduced grading time from 2 hours to 5 minutes by detecting answers and matching them to the answer key.
- Utilized Python, OpenCV, FastAPI, and Docker.

RAG Chatbot for University Admission Counseling (TLU) - Team Lead | Team of 2

May - August 2025

- Built a document processing pipeline to ingest, clean, and chunk institutional documents.
- Implemented vector embeddings and semantic search to retrieve relevant context for user queries.
- Deployed the chatbot backend using FastAPI and Docker.

RAG Chatbot for Legal Consultation - Team Lead | Team of 2

Sep - Dec 2025

- Developed an API service for chatbot interaction and integrated the system into a web interface.
- Improved response relevance by combining retrieved legal context with LLM-based answer generation.
- Built an API service for chatbot interaction and integrated the system into a web interface.

ADDITIONAL EXPERIENCE

Appen - Data Annotator | Hanoi, Vietnam

June 2025 - Present

- Labeled and annotated text, image, and audio datasets for machine learning model training and evaluation.
- Applied detailed annotation guidelines to ensure high-quality labeled data.
- Conducted data validation and quality assurance to maintain dataset consistency and accuracy.
- Contributed to improving AI model performance through high-quality annotated datasets.

INTERESTS

Passionate about mathematics and chess; received multiple awards in both during middle school. Passionate about mathematics and chess; received multiple awards in both during middle school.

I enjoy exploring new ideas, traveling, experiencing diverse cultures, and building meaningful connections with people.
