

NGUYEN HUNG MANH

Hanoi, Vietnam • +84 392 389 623 • nhmanh.dev@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

EDUCATION

Thang Long University

Hanoi, Vietnam

Bachelor of Science in Artificial Intelligence and Computer Science

Graduation: 12/2025

GPA: Artificial Intelligence 8.3/10 | Computer Science 8.2/10

Key Coursework: Machine Learning, NLP, Computer Vision, Data Mining, Big Data, Data Structures & Algorithms.

SKILLS & CERTIFICATIONS

AI & LLM Frameworks: LangChain, LangGraph, Transformers, PyTorch, TensorFlow, Scikit-learn, Model Training & Optimization.

Backend & Infrastructure: Python, SQL, C++, FastAPI, Docker, Redis, n8n, PySpark.

Software and Visualization: Skilled in using Power BI to create interactive dashboards and reports.

Languages: Vietnamese (Native), English (Intermediate), Chinese (Basic).

Certifications: TOEIC scheduled for August 2026 (target score: 750).

PROJECTS

Legal & University Admission RAG Chatbot

May - Dec 2025

- Built end-to-end RAG systems for legal and university admission consulting using Gemini 2.5, FAISS, and FastAPI.
- Indexed 10,000+ documents into tens of thousands of chunks with hybrid retrieval.
- Applied Advanced RAG techniques including Query Expansion, Multi-Query, Reranking, and Context Compression.

Video Automation System

Jan - Apr 2026

- Architected an automated video pipeline integrating LLMs for script generation and editing.
- Built a robust API service using FastAPI to process large-scale video requests asynchronously.
- Deployed Dockerized microservices to integrate AI processing cores with web interfaces.

AI42E Trading System

Mar - June 2026

- Designed an algorithmic engine analyzing real-time market data for automated investment strategies.
- Implemented high-frequency data ingestion and caching using Redis to support low-latency decision-making.
- Integrated machine learning models analyzing market sentiment to improve strategy accuracy.

ADDITIONAL EXPERIENCE

Appen - Data Annotator | Hanoi, Vietnam

June 2025 - April 2026

- Labeled and annotated text, image, and audio datasets for machine learning model training and evaluation.
- Applied detailed annotation guidelines to ensure high-quality labeled data.
- Conducted data validation and quality assurance to maintain dataset consistency and accuracy.
- Contributed to improving AI model performance through high-quality annotated datasets.

Trung Anh Group - AI Intern | Hanoi, Vietnam

May 2026 - August 2026

- Built and deployed RAG chatbots for 20+ healthcare fanpages and 5+ doctors using LangGraph, Qdrant and n8n.
- Automated thousands of customer interactions across Facebook Messenger, Zalo OA, and personal Zalo accounts.
- Designed AI workflows for lead qualification, telesales routing and fragmented conversation recovery.
- Achieved near-fully automated customer support with human handoff for exceptional cases.

INTERESTS

Passionate about mathematics and chess; recipient of multiple awards during secondary school. I enjoy exploring new technologies, traveling, experiencing diverse cultures, and building meaningful connections.
